49	30.0	12"	13 - 13.5	14 - 14.5	-	-

Please note that Sidi shoes are a narrow fit and we recommend going up a size from what you would normally wear. Our sizeguide helps explain this by taking your normal shoe size (Euro/US/UK) on the left and scrolling across to the Sidi size (highlighted in red) to determine your Sidi size. Take your recommended Sidi size and purchase this from our website.

Please note these measurements are taken from the manufacturers sizing guidelines. Please take care when choosing your size, and measure yourself using the diagram shown on the left as a reference.
